

How to Use the Arrowhead Gateway Community Map

1

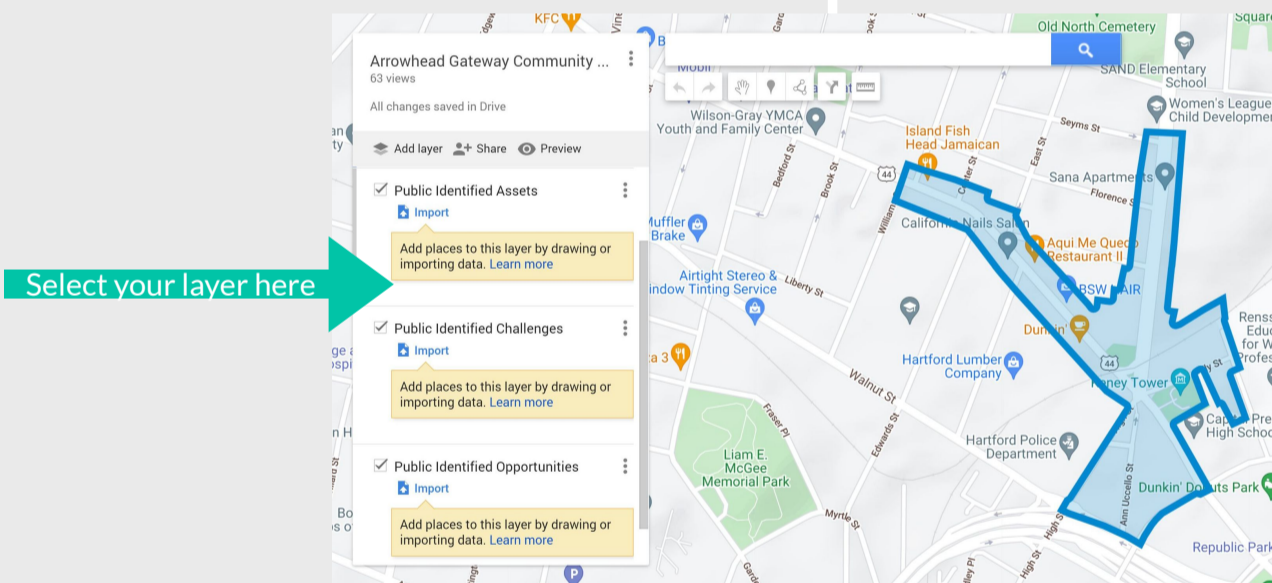

Sign-in to your Google account, or create a new one. See top right corner for "Sign In" button.

Once you have signed in, click the "edit" button.

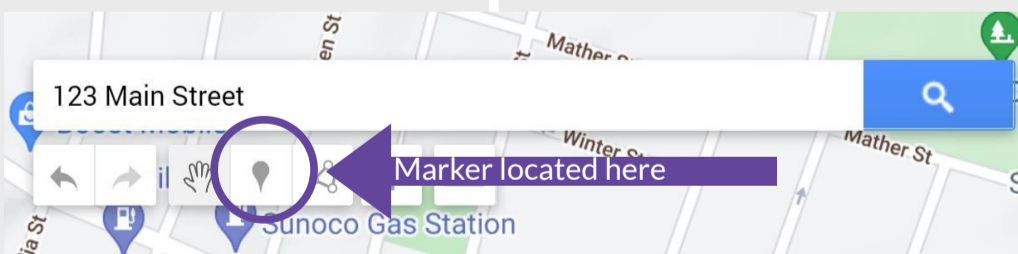

2

Select the layer you want to edit. Please choose from any of the following options: Public Identified Assets, Public Identified Challenges, and/or Public Identified Opportunities.

Select a location. Use the search bar, or select the marker and place it on the map.

3

4

Add a title and description. You can also include links and/or photos. Remember to click save!
